

Tariff Free Into Britain

What the deal means for Gulf manufacturers

THE CHANGE

Nearly Everything, Day One

When the deal goes live, the UK removes tariffs on nearly all current Gulf exports at once. Only a short agricultural list is carved out.

— WHO QUALIFIES

If You Make It, It Likely Counts

- Building products, components, packaging, coatings
- Furniture, most food and drink, consumer goods
- Carve out: pork, chicken and eggs

THE CATCH

Tariff Free Is Not Market Ready

The duty coming off does not teach you UK distribution, buyers or specification. Walk in cold and you sign the wrong distributor and lose two years.

Does your product have a real shot in the UK?

A straight go or no go in five working days.
